

TAKE-AWAY YEARS OF OUR EXPERIENCE

Snack Boxes

Crash lock bottom cartons are ideal for convenience foods such as chicken, fish and chips. Made from food grade board, they are easy to assemble and are tapered to allow for easy stacking.

Clams

Available in a range of sizes and ideal for a variety of foods including burgers and take-away meals, D&D's clams feature a locking closure, are pre-erected which saves time and nest together to minimise valuable storage space.

Carry Packs

Carry packs are comfortable to hold and have a secure locking system. The range of sizes makes them ideal for lunch packs, confectionery or for carrying bakery items.

Food Trays

Food trays are ideal for fish, chips, potatoes, nachos, hot dogs, snacks and finger food. They are microwavable, can be chilled and come in a wide range of shapes and sizes.

Chip Containers

Whether you prefer a crash lock bottom chip carton with locking lid, an easy to assemble chip scoop or a formed chip bucket, D&D have the ideal carton for serving hot chips, wedges, nuggets or calamari rings. These containers nest easily and offer reduced spillage and greater portion control.

Ripple-Wrap™ Cup

This innovative cup has a corrugated insulating paper layer designed to protect the hand, removing the need for double cupping. Ripple-Wrap™ Cup is the ultimate disposable hot cup.

Hot Cups

These cups offer a high quality printing surface and D&D Packaging can custom print your paper hot cup for relatively low volume orders.

Cold Cups

Available with lids and ideal for displaying your marketing message, D&D Packaging supply a full range of cold cup sizes for quick service restaurants and takeaway outlets.

Round Based Food Pails and Meal Packs

These versatile containers are suitable for food or liquid, are microwavable and can be refrigerated. The round based pails are ideal for soups, salads or ice-cream, and the meal packs provide the ultimate presentation for take-away meals.

Square Based Food Pails

Ideal for serving noodles, confectionery or salads and available with or without a wire handle, the special design results in a leakproof pail which eliminates the need for a separate lid.

Carry Trays

D&D Packaging can design and manufacture self-assembly trays to carry anything from meals to drinks to ice-cream cones. Why not ask D&D to develop a carry tray to meet your requirements.

Paper Plates

D&D Packaging offer a broad range of paper plates and bowls – choose from high quality, coated board or budget materials.

Foil Lids

A popular alternative for wet foods, D&D Packaging print and manufacture a full range of foil laminated lids to fit foil containers.

At D&D Packaging we combine over 70 years experience and expertise with a versatile and responsive approach to paperboard packaging. Recognised as a specialist packaging manufacturer, we provide innovative options for the food service and take-away market.

A joint venture company, D&D Packaging was established to service customers in the Asia Pacific Region. The company is backed by Australian based, Detmold Packaging and US based, Dopaco, suppliers to many of the industry's leading companies. With sales offices and manufacturing plants strategically located within the Asia Pacific region, D&D Packaging can guarantee the prompt and efficient supply of your paperboard packaging.

With our commitment to market responsive product development and the quality of our products backed up by excellent customer service, you can be confident D&D Packaging will provide your business with cost effective paperboard packaging solutions to suit your needs.
